Message to Parents

As you know, we work with No More Marking who provide us with a robust method of moderating pupils' writing. We are looking to improve the efficiency of how we implement No More Marking and in February we will be trialling an AI based method of speeding up the moderation process with No More Marking. The method requires us to share anonymised images of pupil writing from their national writing tasks that will be transcribed and shared with AI cloud services.

The data may be transferred to servers in the United States but we ensure it benefits from an adequate level of data protection by relying on Adequacy decisions and Standard contractual clauses. The data is deleted on the backend within 30 days of receipt or generation. The data is not used to train AI models. For further information please see the GDPR and privacy notice from No More Marking.
